## Curriculum Vitae

Ying Wang was born on May 16th, 1974 in Dalian, China. After graduation from Dalian Jinzhou senior high school, he was enrolled in Chinese Medical University in Shenyang, China in 1992, where he obtained his medical degree in 1997. Hereafter, he started working as a resident in the radiology department of the 2<sup>nd</sup> affiliated hospital of Dalian Medical University, China, until August 2000. After that, he continued his residency in the Shanghai 1<sup>st</sup> people's hospital in Shanghai, China, until July 2003. Simultaneously, he performed clinical research under supervision of Professor Jingtao Miao and got his Master Degree in Medicine from Shanghai Medical College of Fudan University. His Master thesis was entitled "Application of dynamic time-resolved contrast-enhanced two-dimensional MR imaging in the differential diagnosis of solitary pulmonary nodules: blood-supply qualification and enhancement ratio quantification".

In September 2003, he started working as a PhD student in the Research & Development group of the department of Radiology at the University Medical Center of Groningen, Groningen, The Netherlands. His PhD research was on the interpretation of chest CT data of participants from the NELSON lung cancer screening trial and on the methods and validation of nodule measurement in lung cancer screening.
