The gut microbiota and inflammatory bowel disease

From exploration to clinical translation

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 3 februari 2021 om 14.30 uur

door

Valerie Collij

geboren op 2 april 1993
te Groningen

Promotores

Prof. dr. R.K. Weersma

Prof. dr. J. Yang-Fu

Copromotor

Dr. A. Vich Vila

Beoordelingscommissie

Prof. dr. H.J. Verkade

Prof. dr. D. Jonkers

Prof. dr. M. Kleerebezem

Paranimfen

Dr. M. Kloosterman

Dr. F. Imhann

Table of contents

Chapter 1	Introduction	9
Part I - Exploring the role of the gut microbiota in IBD		
Chapter 2	Gut microbiota composition and functional changes in inflammatory bowel disease and irritable bowel syndrome <i>Science Translational Medicine 2018;10:eaap8914</i>	23
Chapter 3	Gut microbial co-abundance networks show specificity in inflammatory bowel disease and obesity <i>Nature Communications 2020;11:4018</i>	45
Chapter 4	The composition and metabolic potential of the human small intestinal microbiota and its possible implications in IBD <i>Submitted</i>	73
Chapter 5	<i>SLC39A8</i> missense variant is associated with Crohn's disease but does not have a major impact on gut microbiome composition in healthy subjects <i>Plos One 2019;14:e0211328</i>	93
Part II - Clinical translation – Drugs and (meta)genomics		
Chapter 6	Drug repositioning in inflammatory bowel disease based on genetic information <i>Inflammatory bowel disease 2016;22:2562-2570</i>	111
Chapter 7	Gut microbiome and proteomic changes as biomarker of response to vedolizumab treatment in patients with inflammatory bowel disease <i>Submitted</i>	129
Chapter 8	Impact of commonly used drugs on the composition and metabolic function of the gut microbiota <i>Nature Communications 2020;11:362</i>	151
Chapter 9	Gut microbiota in inflammatory bowel diseases: Moving from basic science to clinical applications <i>Human Genetics 2020: doi: 10.1007/s00439-020-02218-3</i>	171
Chapter 10	Discussion	183
Appendices	Nederlandse samenvatting	206
	English summary	209
	Curriculum vitae	211
	List of publications	212
	Acknowledgements	214
