DETECTION OF AUTISM IN CHILDHOOD

Maarten van 't Hof

The majority of the work presented in this thesis was conducted at Sarr Expert Centre for Autism, Lucertis (Youz) Child and Adolescent Psychiatry, in collaboration with the Parnassia Academy.

The Generation R Study is conducted by the Erasmus Medical Centre Rotterdam in close collaboration with the Faculty of Social Sciences of the Erasmus University Rotterdam, the Municipal Health Service Rotterdam area, the Rotterdam Homecare Foundation and the Stichting Trombosedienst & Artsenlaboratorium Rijnmond (STAR), Rotterdam. We gratefully acknowledge the contribution of the children and parents, general practitioners, hospitals, midwives and pharmacies in Rotterdam. The general design of the Generation R is made possible by the Erasmus Medical Center Rotterdam, the Netherlands Organisation for Health Research and Development (ZonMw), the Netherlands Organisation for Scientific Research (NWO), the Ministry of Health, Welfare, and Sport, and the Ministry of Youth and Families.

Financial support was generously provided by Parnassia Psychiatric Institute, Parnassia Academy and Lucertis (Youz) Child and Adolescent Psychiatry. Financial support for the publication of this thesis was provided by the Parnassia Academy.
