**Functional relevance of eccentric strength
maintenance with age during walking**

Jeroen B. Waanders

The experiments described in chapters 2 and 5 were conducted at the Department of Human Movement Sciences, University Medical Center Groningen, Groningen, the Netherlands. The experiments described in chapters 3 and 4 were conducted at the UNC Applied Biomechanics Laboratory and NC State Human PoWeR lab, Joint Department of Biomedical Engineering, University of North Carolina at Chapel Hill and North Carolina State University, Chapel Hill, NC, USA.

PhD training was facilitated by the research institute School of Health Research (SHARE), part of the Graduate School of Medical Sciences Groningen.

The printing of this thesis was financially supported by:

- University of Groningen
- University Medical Center Groningen
- Research institute SHARE

Functional relevance of eccentric strength maintenance with age during walking

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Monday 17 May 2021 at 14.30 hours

by

Jeroen Bernard Waanders

born on 13 December 1992
 in Hengelo (O)

Supervisor

Prof. T. Hortobágyi

Co-supervisors

Dr. A. Murgia

Dr. J.R. Franz

Assessment Committee

Prof. N. Reeves

Prof. E. Otten

Prof. J.H.P. Houdijk

Table of contents

Chapter 1	General introduction	7
Chapter 2	Functional relevance of relative maintenance of maximal eccentric quadriceps torque in healthy older adults	17
Chapter 3	Advanced age redistributes positive but not negative leg joint work during walking	35
Chapter 4	How age and surface inclination affect joint moment strategies to accelerate and decelerate individual leg joints during walking	57
Chapter 5	Age does not affect the relationship between muscle activation and joint work during incline and decline walking	75
Chapter 6	General discussion	95
Appendices	Summary	108
	Samenvatting	110
	Dankwoord	112
	About the author	114
	Journal publications and conference contributions	114
	Research institute SHARE	116
