Landscapes of Facilitation

The effects of positive interactions on community structure

Isabelle Berthe Catharine van der Ouderaa

© 2021 by Isabelle B. C. van der Ouderaa

The research presented in this thesis was carried out at the Benthic Ecology group at the Groningen Institute for Evolutionary Life Sciences of the University of Groningen (The Netherlands) and at the department of Biological Sciences at the Macquarie University (New South Wales, Australia). Funding for the printing of this thesis was received from the University Library and the Graduate School of Science and Engineering of the University of Groningen.

This thesis should be cited as:

Van der Ouderaa, I. B. C., 2021. Landscapes of Facilitation: The effects of positive interactions on community structure. PhD Thesis, University of Groningen, Groningen, The Netherlands.

Landscapes of Facilitation

The effects of positive interactions on community structure

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

and

to obtain the degree of PhD at the
 Macquarie University,
 New South Wales, Australia.

Double PhD degree

This thesis will be defended in public on

Friday 27 August 2021 at 12:45 hours

by

Isabelle Berthe Catharine van der Ouderaa

born on 6 May 1991
 in Utrecht

Promotores

Prof. B. D. H. K. Eriksson

Prof. M. J. Bishop

Prof. J. van de Koppel

Assessment Committee

Prof. L. Airoidi

Prof. C. Smit

Prof. S. F. Thrush

Prof. J. E. Williamson

For Love.

Table of Contents

CHAPTER 1	General introduction	9
CHAPTER 2	A Pacific oyster invasion transforms shellfish reef structure by changing the development of associated seaweeds	29
CHAPTER 3	Bioengineering promotes habitat heterogeneity and biodiversity on mussel reefs	49
CHAPTER 4	Morphology of a secondary habitat-forming species determines facilitation cascade strength in Australian mangrove forests	73
CHAPTER 5	Mussel reefs generate positive interactions at small and large spatial scales	103
CHAPTER 6	General discussion	129
	References	149
	Summary, Samenvatting	173
	Acknowledgements	185
	Author affiliations	195
	About the author	197
