ACKNOWLEDGMENT

Finally, Thanks to God, Allah SWT, who has opened the way for me to do PhD degree. In the beginning, I was not guessed to pursue my PhD degree in Europe as a destination. Doing PhD degree in Europe is my ambition and dreams for me. First time, when I communicated about duration of PhD degree with my supervisor, “he said that doing PhD is so quick, only 4-5 years”. Now, I knew how to do research and become a good scientist!.

Time is flying. Next, to build my academic career in Indonesia. Before that, I would like to express my gratitude to all companions in my PhD trip.

I would like to acknowledge my sponsor, **the Indonesian Endowment Fund for Education (IEFE)/LPDP Indonesia**, the ministry of finance of Republic of Indonesia, for the funding of a major part of my study scheme.

I would like to express my sincere gratitude to my supervisor and promotor Prof. dr. **Gerrit J. Poelarends**. Gerrit, thank you for giving me an opportunity to be the part of your group and introducing about *biocatalyst* which is new field for me. Thank you for your supervision, support, motivation, enthusiasm for science, and trust my instinct in conducting research. I respect your caring, friendly and easy going attitude towards your students especially when I lost my compounds. I learned from you a lot specially how to describe science in word. Gerrit, thank you for everything, I hope we will always be in a good contact.

I am deeply grateful to my second promotor Prof dr. **Wim J. Quax** for accepting me to carry out my PhD work at the Chemical and Pharmaceutical Biology. I am happy as a member of your research department. I have always appreciated the different points of view. Thank you.

I would like to thank Dr. **Saravanan** for helping me as another essential part of my study. You gave me the best expertise, taught me much of new important knowledge not only finish my research but also to further career in academia both as a lecturer and as a researcher. You have good understanding of what Gerrit wants, so that I

could still get proper supervision when Gerrit could not be there. Once, thank for your “every ready to help, whatever the situation”.

I would like to acknowledge to the assessment committees : Prof. dr. F.J. **Dekker**, Prof. dr. R.P.H. **Bischoff**, and Prof. dr. W.J.H. **van Berkel**. I appreciate for your time in reading the thesis and giving valuable inputs.
