Acknowledgments

In the past four years, I feel so lucky to work in the University of Groningen. It is a great time in my whole life not only because of my PhD study but also for those people I work together. At the end of the thesis, I would like to express my gratitude to everyone who has helped and supported me in this period.

First of all, I would like to thank my supervisor, *Beatriz Nohedá*. Beatriz, you are a very warm, kind, and considerable supervisor. I am so happy and proud to finish my PhD study under your supervision. My luck started from four years ago when you agreed to give me an offer to study here. Without your encouragement and help, it is impossible for me to finish my thesis. I am very grateful for all the time you spent on discussing with me. Your knowledge and patience help me to grow quickly. Your constant enthusiasm for research has inspired me a lot. I can never forget how much time we spent to work together to improve the manuscripts and thesis again and again. I am so sorry to occupy your relax time on many weekends. Thank you so much!

I would like to also thank my daily supervisor, my friend, *Saeedeh*. We worked together for almost two years. Before I come to the group, I have read your papers. They are so impressive and attractive to me. I am so lucky to have a daily supervisor as a PhD student. Your hard working and knowledge helped me a lot. I also want to thank my second supervisor, *Tamalika*, for your support and nice conversations on the conference. Many thanks to both of you!

I am very grateful to my collaborators, *Prof. César Magén*, *Prof. Francisco Rivadulla* and *Dr. Erik van Heumen*. Thanks for your kind help in my PhD project. I also want to thank *Prof. Manuel Bibes*, *Prof. Nigel Hussey*, *Prof. Jan Zaanen*, *Prof. Lukas Eng* for insightful discussions with me.

Happy to have a elder friend like you in the Netherlands. *Arjun*, we discussed for many times from the Hall measurements to the EBL. I learnt so many things from you. I am not a person who are good at expressing and social communication. Sorry to all of my colleagues for my absence in many lunch time and coffee break. But all of your help and the happy time we stay together are kept in my mind. *Mart*, you are a perfect person with profound knowledge. You are good at everything from the research to the music. I am so glad to work together with you and grateful to your suggestions and help in my project. *Pavan*, you are one of the most smart people I have worked with. You always have a deep understanding in everything. Wish the best to your career in India. *Jordi*, you are so nice. Every time when I ask help from you, you always give me support kindly. *Silvia*, you are a nice and smart girl. You are working so hard with a great enthusiasm. I also want to thank my colleagues, *Daan, Arjan, Monica, Machteld, Around, Nick, Eric, Ivar, Jolle, Vincent, Sepide, Siebe, Mohammad, and Evgenios*. *Sanne, Daan* and *Eric*, many thanks for your help in the translation of the summary in this thesis. I am very happy to work together with all of you. Best wishes!

I want to show my special appreciation to my Chinese colleagues and my friends. *Hong*, we got to know each other and became friends before we came to the Netherlands. I still remember that we helped each other in the application of CSC scholarship. Thanks for your encouragement and help in the past four years. Wish the best to your future career and let us keep in touch with each other. *Yingfen*, you are one of my friends who influence me the most in my PhD study. I am still amazed by how hard you worked everyday. You really helped me a lot in my research, especially

in the hafnia project what I am working on now. Good luck with your research and wish the best to your family. *Silang*, you are very special. When I came to the group the first day, you introduced our nice colleagues to me. It really took us some time to get to know each other as both of us are not good at communications. I like the state what we have now. Good luck with your future job.

Wenze, Yingying, and Fei, we are a "small group" in Groningen. I am so happy to have friends like you here and thanks for your treat to my wife and me. We had a lot of good memories in the past four years. *Wenze*, let's keep in touch to share our opinions on the News. I also would like to show my gratitude to my other Chinese friends, *Yehan, Jin Xu, Ping Zhang, Si Chen, Puhua, Heng Zhang, Chongnan, Xiangyang, Xiaoli, Minpeng, Xinpeng, Jin Li, Lei Liang, Jian Liu, Xinglong, Tiantian, Liangyong, Zilong, Wenbo, Yu Li, Hongyu, Junjie, Ting Huang*. All the best to your future!

In the end, I would like to thank my families. Dad and Mom, I am so proud to be the son of you. Since my childhood, no matter where I decide to go and what I want to do, you have always given me support. Confucius said, "While his parents are living, a son should not go far abroad". I am so sorry not be around in the past four years. I promise I will spend more time to accompany you in the future. My dear wife, for me, you are the best gift that God has given me. We have been together for more than 10 years. I am so luck to have a virtuous and considerable wife like you. Our Chinese people always said, "Couples are at their greatest risk in their seventh years". It is absolutely not true to us. I believe our love is a light that never dims. I love you and thanks for your accompanying and encouragement not only in the past years but also in the future. I also want to thanks my parents-in-law for your support and understanding for these years when Hui and me stayed in abroad. The biggest thanks to all of my relatives!

Translation for my parents:

最后，我想对我的家人表示感谢。爸爸妈妈，作为您的儿子我感到非常自豪。从我小的时候开始，不论我去哪，也不论我做什么，你们都尽最大可能的支持我。孔子说：“父母在，不远游”。过去四年不能陪在你们身边，作为儿子真的很不孝。以后，我一定多陪伴在你们身边。我亲爱的妻子，你是上天给我最好的礼物。我们在一起已经超过十年，我是多么幸运才能有您这样一位贤惠和善解人意的妻子。咱们中国人经常说，“夫妻会有七年之痒”，显然这句话并不适用于我们。我相信我们的爱就像一盏永远不会熄灭的明灯一样，历久弥新。我爱你，谢谢你在过去和将来对我的陪伴和鼓励。岳父和岳母，谢谢您二老对惠和我这几年在国外求学的支持和理解。最后，对我们所有的亲人致以谢意！
