Sjoerd van Hasselt

Studies on sleep patterns and sleep homeostasis in birds

An ecological approach

The research presented in this thesis was carried out at the Chronobiology department within the GELIFES institute (Groningen Institute for Evolutionary Life Sciences) of the University of Groningen, The Netherlands.

Studies on sleep patterns and sleep homeostasis in birds

An ecological approach

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

vrijdag 5 november 2021 om 12.45 uur

door

Sjoerd Johan van Hasselt

geboren op 23 april 1992
te Alkmaar

Promotor

Prof. dr. T. Piersma

Copromotores

Dr. P. Meerlo

Dr. N.C. Rattenborg

Beoordelingscommissie

Prof. dr. B. Helm

Prof. dr. T. De Boer

Prof. dr. J. Lesku

Contents

Chapter 1	General introduction & thesis outline	9
Chapter 2	Sleep architecture and sleep homeostasis in the European jackdaw (<i>Coloeus monedula</i>)	19
Chapter 3	The European starling (<i>Sturnus vulgaris</i>) shows signs of NREM sleep homeostasis but has very little REM sleep and no REM sleep homeostasis	41
Chapter 4	Sleep time in the European starling is strongly affected by night length and moon phase	63
Chapter 5	Seasonal variation in sleep homeostasis in migratory geese: a rebound of NREM sleep following sleep deprivation in summer but not in winter	83
Chapter 6	Cloud cover amplifies the sleep-suppressing effect of artificial light at night in geese	117
Chapter 7	Seasonal variation in rest-activity patterns in barnacle geese: are measurements of activity a good indication for sleep-wake patterns?	135
Chapter 8	A comparison of continuous and intermittent EEG recordings in geese under semi-natural conditions: How much data does one need to reliably assess sleep-wake patterns?	153
Chapter 9	Preparing to go wild: tracking migration patterns in barnacle geese	165
Chapter 10	General discussion and conclusions	175
Appendix I	References	185
Appendix II	Nederlandse samenvatting	209
Appendix III	English summary	215
Appendix IV	Chinese summary	221
Appendix V	Acknowledgements	227
