CHAPTER OVERVIEW

Chapter 1	General introduction	7
Chapter 2	The clinical effectiveness of an algorithm-guided treatment program for depression in specialized mental healthcare: A comparison with efficacy trials	21
Chapter 3	Real-world treatment costs and care utilization in patients with major depressive disorder with and without psychiatric comorbidities in specialist mental healthcare	41
Chapter 4	Evaluation of a system change in mental healthcare in the Netherlands: An analysis of costs and care utilization in patients with major depressive disorder	61
Chapter 5	More than cost-effectiveness? Applying a second-stage filter to improve policy decision making	81
Chapter 6	Patients' and clinicians' perspectives on relevant treatment outcomes in depression: qualitative study	113
Chapter 7	The co-creation of a decision-aid for patients with depression: Combining data-driven prediction with patients' and clinicians' needs and perspectives	131
Chapter 8	General discussion	163
	Summary	183
	Nederlandse samenvatting	191
	About the author	200
	List of publications	201
	Dankwoord	202
	Research Institute SHARE	206
