When I started typing these words, I just realized that it's been the fourth year since I had been to Groningen. For me, all of these are like a dream, there are many memories crowded in upon my mind. Even after many years, the memories here will always appear in my dreams.

First and foremost, I would like to express my utmost appreciation to my supervisor, **Prof. Romana Schirhagl**, for all your support and friendship during the past four years. I still remember the first day we met at the entrance of UMCG. We didn't see each other face to face before. But still, we recognize each other. You are always patient and optimistic no matter how hard I thought. You always encouraged me, picked me up from the bottom during the pandemic. Besides that, I like playing with your kids.
