Sex chromosome evolution in the house fly

Genomic distribution and structure of polymorphic male
determining loci

Xuan Li

This research has been carried out at the University of Groningen in the Evolutionary Genetics, Development & Behaviour (EGDB) group belonging to the Groningen Institute for Evolutionary Life Sciences (GELIFES) according to the requirements of the Graduate School of Science and Engineering (Faculty of Science and Engineering, University of Groningen; Groningen, The Netherlands).

This research was funded by China Scholarship Council (CSC) grant (No. 201606330077) awarded to Xuan Li. The printing of this thesis was funded by the University of Groningen and the Faculty of Science and Engineering.
