Inherited Cardiomyopathies
 Genetics and Gene-Environment Interactions

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus, Prof. E. Sterken,
 and in accordance with
 the decision by the College of Deans

This thesis will be defended in public on
 Wednesday 5 March 2014 at 12.45 hours

By

Karin Yvon van Spaendonck-Zwarts
 born on March 21, 1977
 in Borne

Supervisors:

Prof. I.M. van Langen

Prof. M.P. van den Berg

Co-supervisor:

Dr. J.P. van Tintelen

Assessment committee:

Prof. V.V.A.M. Knoers

Prof. J. Mogensen

Prof. H.P.H. Kremer

TABLE OF CONTENTS

1.	General introduction and outline of this thesis	9
Part I: Inherited Cardiomyopathies		
2.	Yield of genetic analysis in 418 index-patients with idiopathic dilated cardiomyopathy; overview of 10 years experience <i>European Journal of Heart Failure 2013; 15: 628-636</i>	25
3.	Desmin-related myopathy: a review and meta-analysis <i>Clinical Genetics 2011; 80: 354-366</i>	55
4.	Recurrent and founder mutations in the Netherlands: the cardiac phenotype of the S13F and N342D founder mutations in the <i>DES</i> gene <i>Netherlands Heart Journal 2012; 20: 219-228</i>	77
5.	Recessive mutations in <i>MYL2</i> cause infantile type I muscle fibre disease and cardiomyopathy <i>Brain 2013; 136: 282-293</i>	95
Part IIA: Gene-Environment Interactions in Inherited Cardiomyopathies: Pregnancy		
6.	Peripartum cardiomyopathy as a part of familial dilated cardiomyopathy <i>Circulation 2010; 121: 2169-2175</i>	127
	Letter regarding article “Peripartum Cardiomyopathy as a Part of Familial Dilated Cardiomyopathy”, and author’s reply <i>Circulation 2011; 123: e8-e9</i>	145
7.	Titin gene mutations are common in families with both peripartum cardiomyopathy and dilated cardiomyopathy <i>Submitted</i>	151
8.	Systematic review of pregnancy in women with inherited cardiomyopathies <i>European Journal of Heart Failure 2011; 13: 584-594</i>	177

Part IIB: Gene-Environment Interactions in Inherited Cardiomyopathies:

Anthracyclines

- | | | |
|-----|--|-----|
| 9. | Familial dilated cardiomyopathy: another risk factor for anthracycline-induced cardiotoxicity?
<i>European Journal of Heart Failure 2010; 12: 1297-1299</i> | 203 |
| 10. | Anthracycline-associated cardiomyopathy in families with dilated cardiomyopathy
<i>Submitted</i> | 211 |
| 11 | Summary and future perspectives | 227 |
| | Samenvatting (Dutch) | 234 |
| | List of authors and affiliations | 237 |
| | Dankwoord | 240 |
| | Curriculum vitae | 242 |
| | List of publications | 243 |
