## Table of Contents

<b>Chapter 1</b>	General introduction and outline of the thesis	9
<b>Chapter 2</b>	HLA-DR4 positivity and female sex are associated with enhanced peripheral maintenance of naive CD4 T cells in aged humans <i>Submitted for publication</i>	23
<b>Chapter 3</b>	Low-affinity TCR engagement drives IL-2-dependent post-thymic maintenance of naive CD4+ T cells in aged humans <i>Aging Cell, 2015</i>	41
<b>Chapter 4</b>	Quantifying distribution of flow cytometric TCR-V $\beta$ usage with economic statistics <i>PlosOne, 2015</i>	67
<b>Chapter 5</b>	Aging disturbs the balance between effector and regulatory CD4+ T cells <i>Experimental Gerontology, 2014</i>	85
<b>Chapter 6</b>	Aging-dependent decline of IL-10 producing B cells coincides with production of antinuclear antibodies but not rheumatoid factors <i>Submitted for publication</i>	103
<b>Chapter 7</b>	Disturbed B cell homeostasis in newly diagnosed giant cell arteritis and polymyalgia rheumatica <i>Arthritis &amp; Rheumatology, 2014</i>	119
<b>Chapter 8</b>	T cell markers are modulated in active giant cell arteritis and polymyalgia rheumatica, but lack diagnostic accuracy <i>Submitted for publication</i>	141
<b>Chapter 9</b>	Serum markers associated with disease activity in giant cell arteritis and polymyalgia rheumatica <i>Rheumatology, 2015</i>	157
<b>Chapter 10</b>	Summary and discussion	173
<b>Chapter 11</b>	Nederlandse samenvatting	194
	Dankwoord	202
	Curriculum vitae	207
	List of publications	208
