Next-generation Sequencing to Investigate Antimicrobial Resistance

A One-Health Perspective

Giuseppe Fleres

Funding: This PhD project has received funding from the European Union's Horizon 2020 Research and Innovation Program under the Marie Skłodowska-Curie grant agreement 713660 (MSCA-COFUND- 2015-DP "Pronkjewail")

Funded by the Horizon 2020
Framework Programme of the
European Union

This PhD project was performed at the Department of Medical Microbiology and Infection Prevention of the University Medical Center Groningen, University of Groningen, The Netherlands.

Cover and layout design: Created by Siscribbles
Printing: Print Service Ede

Next-generation Sequencing to Investigate Antimicrobial Resistance

A One-Health Perspective

PhD thesis

to obtain the degree of PhD at the
 University of Groningen on the authority of the
 Rector Magnificus Prof. dr. C. Wijmenga
 and in accordance with the decision by the College of Deans.

The thesis will be defended in public on Wednesday
 16th November 2022 at 11.00 hours

By

Giuseppe Fleres
 born on 23 December 1989
 Augusta (SR), Italy

Supervisor

Prof. A. W. Friedrich

Prof. J. W. A. Rossen

Co-Supervisor

Dr. S. García Cobos

Assessment Committee

Prof. S. Stefani

Prof. JM van Dijn

Prof. A. Voss

Content

| | | |
|-------------------|---|--------------|
| Chapter 1 | General introduction and scope of the thesis | p.9 |
| Part I. | Antimicrobial Resistance in Human Healthcare and Nosocomial Environment | |
| <hr/> | | |
| Chapter 2 | Detection of <i>Legionella anisa</i> from hospital dental chair units and molecular characterisation by whole genome sequencing | p.25 |
| Chapter 3 | Surveillance and genomic characterization of colistin-resistant Gram-negative bacteria in drains of hospital high-risk units | p.47 |
| Chapter 4 | Monitoring antimicrobial resistance dissemination in hospital tap-water by shotgun metagenomic sequencing | p.71 |
| Chapter 5 | Detection of a novel <i>mcr-5.4</i> gene variant in hospital tap water by shotgun metagenomic sequencing | p.99 |
| Part II | Antimicrobial Resistance in Livestock | |
| <hr/> | | |
| Chapter 6 | Metagenomic Analysis of Porcine Oral Fluid for the Surveillance of Pathogens and Antimicrobial Resistance in Farms | p.107 |
| Chapter 7 | Detection of a small IncX4 plasmid carrying <i>mcr-1.1</i> in a pig oral fluid sample using shotgun metagenomics sequencing | p.149 |
| <hr/> | | |
| Chapter 8 | General Discussion | p.155 |
| Appendices | Summary Nederlandse Samenvatting Acknowledgment About the author | p.167 |
