**BEING AT THE RIGHT TIME AT THE RIGHT PLACE**  
interpreting the annual life cycle of  
Afro-Siberian red knots

The work in this thesis was conducted at the Department of Marine Ecology (MEE), Royal Netherlands Institute for Sea Research NIOZ, Texel, The Netherlands.

The research was principally funded by MAVA - Fondation pour la Nature, Switzerland. The Nature Conservation Prize of the Prins Bernhard Cultuur Fonds, Amsterdam to Theunis Piersma as well as the Royal Netherlands Institute for Sea Research covered additional expeditionary funding and ship time (RV Navicula, NIOZ). The Schure-Beijerinck-Popping Fonds contributed to costs for radiotransmitters and covered travel expenses.

The printing of this thesis was partly funded by the University of Groningen.

*This thesis should be cited as:*

# Contents

CHAPTER 1	Introduction	7
<b>PART 1</b>	<b>SPACING BEHAVIOUR IN THE WINTERING GROUNDS</b>	
CHAPTER 2	Small home ranges and high site fidelity in red knots ( <i>Calidris c. canutus</i> ) wintering on the Banc d'Arguin, Mauritania	13
CHAPTER 3	Persistent small-scale demographic structure suggests cryptic despotic behaviour in a flocking shorebird during the nonbreeding season	23
<b>PART 2</b>	<b>ON MIGRATION</b>	
CHAPTER 4	Northward migration of Afro-Siberian knots <i>Calidris canutus canutus</i> : high variability in red knot numbers visiting staging sites on the French Atlantic coast, 1979–2009	39
CHAPTER 5	Stochastic atmospheric assistance and the use of emergency staging sites by migrants	49
<b>PART 3</b>	<b>STOPOVER ECOLOGY</b>	
CHAPTER 6	Is there a latitudinal gradient in macrozoobenthic community composition in the Schleswig-Holstein Wadden Sea?	59
CHAPTER 7	On 4 June 2008 Siberian Red Knots at Elbe Mouth kissed the canonical evening migration departure rule goodbye	73
<b>PART 4</b>	<b>SURVIVAL THROUGHOUT THE ANNUAL CYCLE</b>	
CHAPTER 8	Seasonal survival rates of a migratory shorebird suggest tropical wintering is costlier than migration	83
<b>PART 5</b>	<b>SYNTHESIS</b>	
CHAPTER 9	Being at the right place at the right time: interpreting the annual life cycle of Afro-Siberian red knots	95
