# **Vulnerability and emotional processing in depression**

Nynke A. Groenewold

The research reported in this thesis was carried out at the Interdisciplinary Center of Psychopathology and Emotion regulation (ICPE, [www.icpe.nl](http://www.icpe.nl)), NeuroImaging Center (ICPE-NIC) of the University of Groningen, the Netherlands, and the Psychopharmacology and Emotion Research Laboratory (PERL), Warneford Hospital, University of Oxford, United Kingdom.

The research reported in this thesis was financially supported by a stipend from the Gratama Stichting (2012/35), University of Groningen. This PhD trajectory was financially supported by a bursary from the research school of Behavioural and Cognitive Neurosciences (BCN), and by the Graduate School of Medical Sciences, the University Medical Center Groningen, and University of Groningen, the Netherlands.

Printing of this thesis was financially supported by the University Medical Center Groningen, University of Groningen and research school of Behavioural and Cognitive Neurosciences (BCN).

neural and clinical perspectives

## **Proefschrift**

ter verkrijging van de graad van doctor aan de  
 Rijksuniversiteit Groningen  
 op gezag van de  
 rector magnificus prof. dr. E. Sterken  
 en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 11 november 2015 om 11.00 uur

door

**Nynke Afke Groenewold**

geboren op 29 mei 1986  
 te Sneek

## **Promotores**

Prof.dr. P. de Jonge

Prof.dr. A. Aleman

## **Copromotor**

Dr. A.M. Roest

## **Beoordelingscommissie**

# Table of Contents

## Chapter 1

General introduction 1

---

## **Part 1 – task-related modulation of the neural correlates of depression**

### Chapter 2

Emotional valence modulates brain functional abnormalities in depression: evidence from a meta-analysis of fMRI studies 15

### Chapter 3

The neural correlates of self-reflection in depression: activation and network connectivity 47

---

## **Part 2 – the neural correlates of cognitive and vascular depression risk factors**

### Chapter 4

Cognitive vulnerability and implicit emotional processing: imbalance in frontolimbic brain areas? 75

### Chapter 5

The associations of depression and hypertension with brain volumes: independent or interactive? 95

---

## **Part 3 – the clinical correlates of cognitive and vascular depression risk factors**

### **Chapter 6**

Comparing cognitive and somatic symptoms of depression in myocardial infarction patients and depressed patients in primary and mental health care 117

### **Chapter 7**

Cognitive vulnerability differentially predicts symptom dimensions of depression 137

### **Chapter 8**

Associations between cognitive vulnerability levels and depression course following treatment in primary care 157

---

### **Chapter 9**

General discussion 175

---
