Delay in Safe Motherhood

1. A Maternity Waiting Home can only be successful if appropriate care is taken that the service is acceptable to the women in need.
This thesis
2. Simulation of shoulder dystocia and postpartum haemorrhage cannot be used for normative evaluation of technical skills.
This thesis
3. Standard treatment and evaluation charts improve guideline adherence and quality of care for women with eclampsia.
This thesis
4. The use of video in the labour room to evaluate quality of care is acceptable to patients and staff.
This thesis
5. Funding agencies of training programs should incorporate evaluation and open access reporting of results in their budgets.
This thesis
6. Paying a daily allowance to course participants does not help in selecting those people that are most interested in the course content.
7. When women start naming their newborns after the car that transported them to hospital it is preferable to use an (Alfa) Romeo Guilieta instead of a Landcruiser.
8. Wie rustig blijft in een panieksituatie is traag van begrip of goed getraind.
9. Het kwantitatief benoemen van risico's is best heel belangrijk maar vaak een beetje onderbelicht.
10. Ook bij hoge werkbelasting is een lieve belastingadviseur van groot belang.
11. Dat een Canadees nooit zal overwegen door sneeuw of regen te fietsen wordt weerspiegeld in het feit dat de fietsen er zonder spatbord worden verkocht.
12. Als je stappen groot genoeg zijn, struikel je nooit over je veters.
