CONTENTS

Chapter 1	General Introduction	7
Part I	Literature review	17
Chapter 2	Neuromotor, cognitive, language and behavioural outcome in children born following IVF or ICSI – a systematic review	17
Part II	The Groningen ART cohort study	41
Chapter 3	Ovarian hyperstimulation and the in vitro fertilization procedure do not influence early neuromotor development, a history of subfertility does	41
Chapter 4	Ovarian hyperstimulation and the in vitro procedure do not affect neurological outcome in infancy	59
Chapter 5	The effects of ovarian hyperstimulation and the IVF laboratory procedures on neurological condition at 2 years	75
Chapter 6	Developmental status and behaviour at 2 years	93
Part III	Follow-up of children born after IVF with Preimplantation Genetic Screening	107
Chapter 7	Neurological condition of infants born after IVF with preimplantation genetic screening	107
Chapter 8	Mental, psychomotor, neurological, and behavioural outcome of 2-year-old children born following preimplantation genetic screening: follow-up of a randomised controlled trial	121
Part IV	General discussion, future perspectives and summary	133
Chapter 9	General discussion and future perspectives	133
Chapter 10	Summary & Samenvatting	143
	References	153
	Dankwoord	166
	Over de auteur	171
	List of publications	173

endless forms
most beautiful and most wonderful
have been,
and are being evolved
from so simple a beginning

*adapted from Charles Darwin,
Origin of Species, 1859*
