Clinical translation of laser speckle contrast imaging

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Friday 16 December 2022 at 14.30 hours

by

Willem Theodorus Heeman

born on 8 July 1994
in Harderwijk

Supervisor

Prof. G.M. van Dam

Prof. E.C. Boerma

Co-supervisor

Dr. T. Van Zutphen

Assessment Committee

Prof. J.P.P.M. De Vries

Prof. K.M. Tichauer

Prof. S. Gioux

TABLE OF CONTENTS

Chapter 1	13	Chapter 8	143
General introduction and outline of the thesis		Laparoscopic laser speckle contrast imaging can visualize anastomotic perfusion: A demonstration in a porcine model	
Chapter 2	21	Life, 2022	
Clinical applications of laser speckle contrast imaging: a review		Chapter 9	155
Journal of biomedical optics, 2019		Application of laser speckle contrast imaging in laparoscopic surgery	
Chapter 3	47	Biomedical optics express, 2019	
Real-time visualization of renal microperfusion using laser speckle contrast imaging		Chapter 10	171
Journal of biomedical optics, 2021		Dye-free visualisation of anastomotic perfusion deficits using laser speckle contrast imaging in laparoscopic surgery	
Chapter 4	67	Submitted	
Real-time, multi-spectral motion artefact correction and compensation for laser speckle contrast imaging		Chapter 11	185
Submitted		Summary, future perspectives and conclusion	
Chapter 5	83	Chapter 12	203
A guideline for clinicians performing clinical studies with fluorescence imaging		Dutch summary – Nederlandse samenvatting	
Journal of nuclear medicine, 2022		Appendices	217
Chapter 6	101	About the author	
A novel and generic workflow of indocyanine green perfusion assessment integrating standardization and quantification towards clinical implementation		List of publications	
Annals of surgery, 2021		Acknowledgements	
Chapter 7	127		
Experimental evaluation of laser speckle contrast imaging to visualize perfusion deficits during intestinal surgery			
Surgical Endoscopy, 2022
