The research reported in this thesis was carried out at the Evolutionary Genetics group that is part of the Center for Ecological and Evolutionary Studies of the University of Groningen (The Netherlands).

This research was supported by a Pioneer grant ALW 833.02.003 of the Netherlands Organization for Scientific Research awarded to L. W. Beukeboom and partly by the Huygens Scholarship Programme.

The production of this thesis was founded by the Faculty of Mathematics and Natural Sciences of the University of Groningen.
