## Acknowledgements

Work presented here would not be possible without collaboration, sharing of knowledge and support from my supervisors, colleagues, friends and family.

First and foremost, I would like to thank my promotor and copromotors. Maarten, thank you for giving me the opportunity to do research in your group, for sharing your pharmacoeconomics expertise and for supporting and stimulating my independence as a researcher. I have learned a great deal from you not only about pharmacoeconomics but also people-managing and putting things into a broader perspective - I could not have imagined a better promotor!

Petros, thank you for sharing with your passion for statistics with me, teaching me always to question and encouraging me to use R. Thank you for our long discussions and putting many hours in our projects!

Hoa, your knowledge, sharp eye for detail, your enthusiasm and support were of great value for this work!

Long work hours may have not been always stimulating if it was not for my colleagues and friends. Job and Stefan, thanks for keeping the spirits high and supporting me learning and speaking Dutch. Hao, Hong-Anh, Koen, Maarten, Elisabetta and Giedre, thank you for bringing joy in many conversations. Dinners with you were never dull.

Thanks to all my colleagues and friends from the unit of PE2 for making a great and inspiring working environment - Aulya, Bob, Bert, Christiaan, Dianna, Didik, Eelko, Jens, Josta, Jannie, Lan, Marcy, Mark, Nynke, Pepijn, Pricillia, Peter, Thea, Ury and Yugo. I enjoyed your company!

Milica, my dearest and closest friend, not only do you possess all the qualities one can wish for in a friend, but you were also always the most inspiring, outgoing and enjoyable person I know. I am incredibly grateful for our friendship!

Bianka, my dear paranimf, your vivid spirit and positive attitude made the working hours (and after...) always fun!

The group of Balkanians in Groningen made me feel at home. Dear Vibor, Kaca & Sara, Jelena & Slobodan, Ivana & Ivan, Jelena & Dule, Deki & Sonja Maja, Ena, Faris, Igor, Jelena J., Jelena G., Igor, Ivan V., Visnja, Milica – thank you for all the parties, dinners and going out. The time spent together meant a lot to me! My friend and

colleague, Jovan, dedicated to the same goal – I always enjoyed your visits to the department in particular for bringing fresh jokes from Serbia.

Clement, thank you for being a housemate to Mici and me, I can't imagine the combination to be more colorful. Your witty comments turned every situation hilarious! Additionally, I must thank you for introducing us to a great group of people! Katia, Manuel, Helgi, Marta, Marcelo, Susan, Rebeca, Sara, Jaakko, Thomas – all amazing people in their own way made every gathering fun.

Even when you are thousands of kilometres apart true friendship will not be harmed by distance and whenever you meet again you can pick up where you left. Andrijana, Tijana, Gaga, Jovana, Milena and Marija, thank you for our enduring friendship!

My dear family, tata, mama, and Nikola, thank you for your love, support, encouragement and always believing in me! This would not be possible without you.

My dearest Henri, I am grateful that you are part of my life. All professional challenges would have been more of a burden to deal with if it hadn't been for your love, support, luminosity and knowledge. Thank you for making my life complete!
