The effect of angiotensin (1-7) on bone marrow stem cells

Adjunctive pharmacological therapy for
cell transplantation in heart failure

Cheng Qian

The publication of this thesis was financially supported by:
Groningen University
Medical Faculty of Groningen University
Groningen University Institute for Drug Exploration (GUIDE)

The printing of this thesis was financially supported by:
Astellas Pharma B.V.; Amgen B.V.; Boehringer Ingelheim B.V.
Novartis Pharma B.V.; Sanofi-aventis en Bristol-Myers Squibb;
Servier Nederland Farma B.V.; Pfizer B.V..

The research described in this thesis was partly funded by an Ubbo Emmius
Scholarship of Groningen University
