Identification and characterization of glycoside hydrolase family 32 enzymes from *Aspergillus niger*

Goosen, Coenie

IMPORTANT NOTE: You are advised to consult the publisher's version (publisher's PDF) if you wish to cite from it. Please check the document version below.

Document Version

Publisher's PDF, also known as Version of record

Publication date:
2007

Contents

	Page
Chapter 1	
General introduction to the project	1
Chapter 2	
Database mining and transcriptional analysis of genes encoding inulin-modifying enzymes of <i>Aspergillus niger</i>	25
Chapter 3	
Molecular and biochemical characterization of a novel intracellular invertase from <i>Aspergillus niger</i> with transfructosylating activity	55
Chapter 4	
Exo-inulinase of <i>Aspergillus niger</i> n402: a hydrolytic enzyme with significant transfructosylating activity	77
Chapter 5	
Samenvatting en conclusies	97
Chapter 6	
Summary and concluding remarks	109
Chapter 7	
Samevatting en konklusies	119
Appendix 1	
Genome sequencing and analysis of the versatile cell factory <i>Aspergillus niger</i> CBS 513.88	129
References	141
