## Contents

<b>Chapter one</b>	General introduction	9
<b>Chapter two</b>	ATP-binding cassette (ABC) transporters in normal and pathological lung <i>Respiratory Research, 2005; 6: 59</i>	17
<b>Chapter three</b>	Diminished expression of multidrug resistance-associated protein 1 (MRP1) in bronchial epithelium of COPD patients <i>Virchows Archiv, 2006; 449: 682-688</i>	53
<b>Chapter four</b>	Multidrug resistance-associated protein 1 in transplant and native bronchus in emphysema <i>Submitted for publication</i>	67
<b>Chapter five</b>	Reduced inflammatory response in cigarette smoke exposed Mrp1/Mdr1a/1b deficient mice <i>Submitted for publication</i>	75
<b>Chapter six</b>	Cigarette smoke extract affects functional activity of MRP1 in bronchial epithelial cells <i>Submitted for publication</i>	91
<b>Chapter seven</b>	Effect of COPD treatments on MRP1 mediated transport in bronchial epithelial cells <i>Submitted for publication</i>	107
<b>Chapter eight</b>	Indomethacin induces apoptosis in an MRP1-dependent mechanism in MRP1 overexpressing, doxorubicin resistant SCLC cells <i>Submitted for publication</i>	121
<b>Chapter nine</b>	Summary and future perspectives	137
<b>Nederlandse samenvatting (Dutch summary)</b>		149
<b>Dankwoord (Acknowledgments)</b>		163
