Curriculum Vitea

The author of this thesis was born on February 19th 1962, in Breda, the Netherlands as the second of three sons of Gerard Verschuuren and Emmy Strack van Schijndel. He attended primary school in Welten and later Secondary School (Atheneum B) at the Coriovallum College in Heerlen. He passed final examinations in 1980. After a short period studying Chemistry at the Technical University of Eindhoven, he attended the Catholic University in Nijmegen where he graduated in medicine in 1989. During his study he trained for a short period in Malta and Kaplong Hospital in western Kenya. He was a student member of the subfaculty counsel of Medicine and faculty counsel of Medicine and Dentistry. After his study he did his military service at the LIMOS air force base which enabled him to do research about the role of MHC class II expression on tumor cells in the laboratory of oncology in the Radboud Hospital Nijmegen in the afternoon. In 1990 he started as a resident internal medicine in Deventer where his training in internal medicine started in March 1991. He finished his training at the University Hospital Groningen from 1995 until 1997. Thereafter he worked at the department of Clinical Immunology where he started his research and as a part time member of the lung transplant team. Since 1999 he is a fulltime member of the lung transplant team Groningen. He is married to Corien Bemelmans and they have four daughters.
