The Illusion of Monogamy

Patterns of extra-pair paternity in the reed bunting
(*Emberiza schoeniclus*)

The research reported in this thesis was carried out at the Zoological Laboratory of the University of Groningen, P.O.Box 14, 9750AA Haren, The Netherlands. This research was financially supported by a grant from the Netherlands Organisation for Scientific Research to J. Komdeur (NWO, 809-34-005) and a grant from the Schure-Beijerinck-Popping Fund of the KNAW to K.M.Bouwman (SBP/JK/2003-30). Production of this thesis was partly funded by the University of Groningen, the Centre for Ecological and Evolutionary Studies (CEES) and NWO.

Lay-out and figures: Dick Visser

The Illusion of Monogamy

Patterns of extra-pair paternity in the reed bunting
(*Emberiza schoeniclus*)

PROEFSCHRIFT

ter verkrijging van het doctoraat in de
Wiskunde en Natuurwetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. F. Zwarts,
in het openbaar te verdedigen op
vrijdag 22 april 2005
om 16.15 uur

door

Karen Marian Bouwman

geboren op 23 mei 1976

Promotores: Prof. Dr. Ir. J. Komdeur
Prof. Dr. R. H. Drent

Beoordelingscommissie: Prof. Dr. S. Daan
Prof. Dr. C. ten Cate
Prof. Dr. T. A. Burke

Contents

Chapter 1	General introduction	7
Part I - Benefits of extra-pair paternity to females		
<hr/>		
Chapter 2	How female reed buntings benefit from extra-pair mating behaviour: testing hypotheses through patterns of paternity in sequential broods.	17
Chapter 3	Older male reed buntings are more successful at gaining within- and extra-pair fertilisations.	37
Part II - Costs of extra-pair paternity to females		
<hr/>		
Chapter 4	Male reed buntings do not adjust parental effort in relation to extra-pair paternity.	65
Part III - Constraints on extra-pair mating behaviour		
<hr/>		
Chapter 5	Older female reed buntings (<i>Emberiza schoeniclus</i>) increase extra-pair paternity in their broods when mated to young males.	85
Chapter 6	No effect of breeding density, synchrony or predation on levels of extra-pair paternity in the reed bunting.	97
Chapter 7	Weather conditions constrain extra-pair mating behaviour in the reed bunting.	113
Part IV - Synthesis		
<hr/>		
Chapter 8	How consistent are patterns of paternity between different populations of reed buntings?	125
Chapter 9	General discussion	141
	References	159
	Nederlandse samenvatting	173
	Acknowledgements - Dankwoord	179
	Addresses of co-authors	184
