Mechano- and electrophysiological  
studies on cochlear hair cells and  
superficial lateral line cupulae

Theo Dinklo

The work described in this thesis was performed at the Department for Neurobiophysics of the University of Groningen, the Netherlands, financially supported by a grant from The Netherlands Organisation for Scientific Research (NWO-ALW, 805.01.164) and by the Centre for Behaviour and Neurosciences (CBN).

The thesis was published with financial support of NWO, the School of Behavioural and Cognitive Neurosciences (BCN) and the University of Groningen.
