CONTENTS

CHAPTER 1. General Introduction	11
CHAPTER 2. Long-term results of the Zwolle trial	25
2.1. Prognostic importance of left ventricular function after angioplasty or thrombolysis for acute myocardial infarction: Long-term results of the Zwolle trial. <i>Neth Heart J 2001;9:160-5.</i>	27
2.2. Additional benefits of primary PCI compared to thrombolytic therapy in acute anterior STEMI patients during long-term follow up. The importance of left ventricular function. <i>Submitted.</i>	41
CHAPTER 3. Ventricular fibrillation in acute myocardial infarction	57
3.1. Out-of-hospital ventricular fibrillation in patients with acute myocardial infarction: coronary angiographic determinants. <i>J Am Coll Cardiol 2000;35:144-50.</i>	59
3.2. Preinfarction angina protects against out-of-hospital ventricular fibrillation in patients with acute occlusion of the left coronary artery. <i>J Am Coll Cardiol 2001;38:1369-74.</i>	77

3.3. Predictors of early ventricular fibrillation before reperfusion therapy for acute ST elevation myocardial infarction. <i>Submitted.</i>	91
 CHAPTER 4. Angiographic success of reperfusion	105
4.1. Incidence and clinical significance of distal embolization during primary angioplasty for acute myocardial infarction. <i>Eur Heart J 2002;23:1112-7.</i>	107
4.2. Angiographic determinants of infarct size after successful percutaneous intervention for acute ST elevation myocardial infarction; The impact of distal embolization. <i>Neth Heart J 2002;10:353-359.</i>	121
4.3. Angiographic predictors of left ventricular ejection fraction after successful angioplasty in acute myocardial infarction. An angiographic risk score for use in the catheterization laboratory. <i>Submitted.</i>	139
4.4. Frequency and sequelae of ST elevation acute myocardial infarction caused by spontaneous distal embolization from unstable coronary lesions. <i>Am J Cardiol 2003;91:708-11.</i>	153

4.5. Angiographic assessment of reperfusion in acute myocardial infarction by myocardial blush grade. <i>Circulation, In Press.</i>	163
CHAPTER 5. Heart failure and age in primary PCI	179
The prognostic importance of heart failure and age in patients treated with primary angioplasty. <i>Eur J Heart Fail, In Press.</i>	181
CHAPTER 6. Circadian variation in outcome of primary PCI	193
Outcome of primary angioplasty for acute myocardial infarction during routine duty hours versus during off-hours. <i>J Am Coll Cardiol, In Press.</i>	195
SUMMARY AND CONCLUSIONS	207
NEDERLANDSE SAMENVATTING	213
CURRICULUM VITAE	219
