Acknowledgements

Finally the book is *klaar!*

First of all, I would like to express my genuine appreciation to Henk Miedema for giving me the opportunity to get into the world of selectivity and membranes.

I would like to sincerely thank my supervisors Katja Loos and Olivier Schaetzle for all the advice and support through the project with regard to the experiments and problems that arose. Thank you Katja for being my reference, the support I needed especially in tough times. Thank you Olivier for your patience but especially for the long conversations - not always about science.

I would also like to thank Kitty Nijmeijer for her interest and support during part of this thesis. Thank you Kitty for helping me find the right track.

In this research dedicated and hard-working students participated. Thank you Wesley, Isabel, Barbara, Lola, Shirado and Marijke for your interest and commitment.

My appreciation also goes to UCF and all the beautiful and generous people that work there. A special mention goes to Liisa, Tonny, Githe and Inge for their warmth and unconditional support.

We never walk alone, and I would like to send a big hug to all people that I crossed during this time. In the first place, my office mates need to be thanked, without them it would have been very different. Bestie, our peculiar connection can only make me smile, I am very glad we met! Oane, we shared table during the MSc, and then again for the PhD, *the girl* is very thankful for your constant support, will to help, and for preparing the best tea ever - cheating, of course! Pawel, your grumpiness was the spark in our office but to be honest I really appreciated your nerve! Passion is always a plus! Roel, what can I say, thanks for all the concerts, parties, laughter, dances, BBQs, it has been a great pleasure

to share all that fun with you! Charu, thanks for comprehension and mindful advices. It was great to have such a soothing person around, especially during the writing period. Dries, Drieske, my H-bond, you are the one I had the strongest chemistry with (bad joke!). I could share all frustrations with you, your responds were always the same: either getting pen and paper or dancing them off! Thank you for all the awesome times we had together, you know the bond is strong.

Besides the office, another place I crossed with people was the canteen. There, long conversations, laughter and plenty of tea and coffee were shared. I would like very much to thank all those people who made every break a moment of relax: Adam (hugs heall!), Bruno, Camiel, Slawek and Aga, Lina, Philipp K. (Danke!), Lena, João (writing is easier than properly pronouncing :p), Pedro, Jordi, Fabian, Joeri, Pauet, Ernest, Patricia, Marianne (goeie!! Namaste! best partynymph ever!), Jelmer (goeie!!), Jan T., Helena, Monir, Janneke, Mark, Natascha, Jouke, Rik, Jaap, Vytautas (*mosquito selective!*), Judita, Pom, Zlatica, Odne, Martijn, Elmar, Astrid, Taina, and many more...

Of course I could not forget to thank my personal yin and yang, Victor and Terica, *my people*. You guys “made my day” every single day. One time strong! Victor, gràcies per tots els *i tu què vols fill?*, pels mil consells, per escoltar-me però sobretot per totes les vegades que hem rigut sense parar, *txè!* Terica, *mamadoo*, paranymph, I think I never met anyone that I did not have to use almost any word to have a deep and fruitful conversation. *Mi lov yah dutty gyal.*

I also would like to thank my other paranymph: Mariana. Gracias por todas las charlas, risas, cucharas y viajes por tierras nevadas. Siempre supe que estabas ahí para lo que fuera. Mil gracias!

I don't think I could have managed without you, *Kibbeling*. My most utter appreciation for your support, comprehension, *dragon* skills, healing hugs, concerts, trips, contracts, but, most of all, thank you for doing the dishes! It is like that!

Frans en Tinie hartelijk bedankt voor jullie liefde. Frans, iedere dag dat we kletsten sprak je me moed in en gaf je me goed advies. Ik heb erg veel van jou geleert. Je hebt me erg veel energie gegeven. Dank je wel *brujo bonito*!

Tan(t) tan(t) hem arribat a Ítaca... sembla que no però ja fa 5 anys i pico que vam salpar.... De fet, parlàvem cada dia... aquestes converses han estat perfectes, tant les meves enrebassades com les més estúpides. No m'has deixat defallir mai. Gràcies Xevi! Moltíssimes gràcies també a la Cristineta per les llargues converses i els ànims i pel Rototom! Fustera, ara et toca a tu! Ànims!

Sols em queda agrair a la meva família tota l'ajuda i el suport que m'han ofert. Moltes gràcies mama per deixar-me volar! Gràcies Tet i Sílvia per escoltar-me i ajudar-me a trobar solucions! Gràcies Berta i Martí per totes les rialles i abraçades que acumulaveu per quan vingués! Gràcies Baba per estimar-me tant!
