And once the storm is over
you won't remember how you made it through,
how you managed to survive.

You won't even be sure,
in fact,
whether the storm is really over.

But one thing is certain.
When you come out of the storm
you won't be the same person who walked in

That's what this storm's all about.

— Haruki Murakami

Fiona Maas

Table of contents

Chapter 1	Introduction and aim of the thesis	9
Chapter 2	ANCA pathogenicity revisited: pathogenic versus non-pathogenic ANCA Nephrology, Dialysis and Transplantation, 2014	25
Chapter 3	Toll-like receptor 9 activation enhances B cell activating factor and interleukin-21 induced anti-proteinase 3 autoantibody production <i>in vitro</i> Rheumatology, 2016	41
Chapter 4	Autoantibody production and B cell phenotype in relapsing granulomatosis with polyangiitis patients; a prospective cohort study Manuscript in preparation	63
Chapter 5	Regulatory and effector B cell cytokine production in patients with relapsing granulomatosis with polyangiitis Arthritis Research & Therapy, 2016	89
Chapter 6	The dual role of interleukin-10 in <i>in vitro</i> production of anti-neutrophil cytoplasmic antibodies Work in progress	109
Chapter 7	Kv1.3 channel blockade modulates the effector function of B cells in granulomatosis with polyangiitis Manuscript in preparation	129
Chapter 8	Summary, discussion and future perspectives	147
Chapter 9	Nederlandse samenvatting	165
	Dankwoord	175
	Curriculum Vitae	179
