Faghihi, V. (2016). *Water enriched in the rare stable isotopes: Preparation, measurement and applications*. [Thesis fully internal (DIV), University of Groningen]. University of Groningen.

Copyright

Other than for strictly personal use, it is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), unless the work is under an open content license (like Creative Commons).

The publication may also be distributed here under the terms of Article 25fa of the Dutch Copyright Act, indicated by the "Taverne" license. More information can be found on the University of Groningen website: <https://www.rug.nl/library/open-access/self-archiving-pure/taverne-amendment>.

Take-down policy

If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

Downloaded from the University of Groningen/UMCG research database (Pure): <http://www.rug.nl/research/portal>. For technical reasons the number of authors shown on this cover page is limited to 10 maximum.

Curriculum Vitae

Vahideh Faghihi was born on 23 August 1976 in Hamedan, IRAN. She got a BSc degree in Applied Physics in 1998 from International University of IRAN and a MSc degree in Atomic and Molecular Physics in 2002 from the National University of IRAN. She ranked 1st in Graduation, both in B.Sc and M.Sc.

She worked as a researcher on different subjects at the Laser and Optics Research School, Tehran, Iran for the period of 2002-2009. In 2009, she awarded Merit-based Fellowship of the Iranian Ministry of Science, Research, and Technology for a PhD studying. In 2009, she started her PhD program at the Centre for Isotope research (CIO) in Groningen University, the Netherlands and Grenoble University in France.
