THE PATHOPHYSIOLOGY OF NECROTIZING ENTEROCOLITIS IN PRETERM INFANTS:

NEW INSIGHTS IN THE INTERACTION BETWEEN
THE GUT AND ITS MICROBIOTA

FARDOU HADEWYCH HEIDA

ISBN 978-90-367-8878-6
Lay-out TwoBees reclame, Beesd
Printed by PrintQuest, Deventer

Financial support for the creation of this thesis by the following companies/institutes is gratefully acknowledged':

- Agrirootz
- Graduate School of Medical Sciences
- GUF/Gratama stichting
- Hero Baby
- Junior Scientific Masterclass
- Nutricia Nederland B.V.
- Nutricia Research
- NutsOhra Foundation
- University of Groningen, University Medical Center Groningen
- Zicht: risico- en verzekeringsadviseurs.

The research described in this thesis was performed within the Department of Pediatric Surgery, Microbiology, and Neonatology of the University of Groningen, University Medical Center Groningen, Groningen, Netherlands.

TABLE OF CONTENTS

SECTION 1 INTRODUCTION	8
Chapter 1 General introduction and aim	10
Chapter 2 Necrotizing enterocolitis in the Netherlands: an increased incidence in three academic referral centers	40
SECTION 2 INTESTINAL BARRIER INTEGRITY AND CIRCULATION	54
Chapter 3 Paneth cells in the developing gut: when do they arise and when are they immune competent?	56
Chapter 4 Tissue oxygenation and intestinal fatty acid-binding protein in plasma during necrotizing enterocolitis	74
Chapter 5 Intestinal fatty acid-binding protein levels in necrotizing enterocolitis correlate with extent of necrotic bowel: results from a multicenter study	90
SECTION 3 BACTERIAL COLONIZATION AND NEC	102
Chapter 6 Bloodstream infections during the onset of necrotizing enterocolitis and their relation with the pro-inflammatory response, gut wall integrity and severity of disease in NEC	104
Chapter 7 A necrotizing enterocolitis-associated gut microbiota is already present in the meconium: results of a prospective study	120
Chapter 8 Identification of bacterial invasion within the intestine in NEC specimens using fluorescent in situ hybridization	142
Chapter 9 General discussion and future perspectives	158
Chapter 10 Summary	196
Chapter 11 Dutch summary (samenvatting in het Nederlands)	202
Chapter 12 Abbreviations, acknowledgments, about the author & list of publications	210

SECTION 1

INTRODUCTION

- Chapter 1** Introduction and aims of the thesis
- Chapter 2** Necrotizing enterocolitis in the Netherlands:
an increased incidence in three academic referral centers
