I am grateful for all your career advice .

I would like to address the words of the deepest gratitude to my supervisor Prof. Bart van de Sluis. Dear Bart, thank you for believing in me 5 years ago and giving me opportunity to work in you group. It was a truly amazing experience, and I could not wish for a better supervisor! Thank you for teaching me how to ask scientific questions, and how to enjoy every moment (well, almost every moment) of struggle in answering them. Only your support, mentorship and sense of humor made this PhD journey possible for me. Thank you for always being available for your students, and being inspiration for them!
