# **Integrating Ecosystem Services into Coastal and Marine Governance**

An Economic Institutionalist Perspective based on Chinese Practice

**PhD thesis**

to obtain the degree of PhD at the  
 University of Groningen  
 on the authority of the  
 Rector Magnificus Prof. E. Sterken  
 and in accordance with  
 the decision by the College of Deans.

This thesis will be defended in public on

Thursday 2 March 2017 at 14.30 hours

by

**Ruiqian Li**

born on 9 March 1986  
 in Shandong, China

**Supervisor**

Prof. dr. J. Woltjer

**Co-supervisor**

Dr. M.A. van den Brink

**Assessment Committee**

Prof. dr. G. de Roo

Prof. dr. R.L. Holz hacker

Prof. dr. I. Mose

# Contents

<b>List of Tables</b> .....	V
<b>Chapter 1 Introduction</b> .....	1
1.1 Background: The need to integrate ES thinking in coastal and marine governance .....	2
1.2 The case of China.....	4
1.3 Challenges regarding the integration of ES thinking into coastal and marine governance.....	5
1.4 Theoretical basis .....	7
1.4.1 Coastal and marine governance.....	7
1.4.2 Economic institutionalism.....	8
1.5 Research Objective and Research Questions.....	9
1.6 Research Strategy .....	12
1.6.1 A case study approach .....	12
1.6.2 Providing analytical guidelines and generalization bases: Academic literature review .....	13
1.6.3 Acquiring in-depth knowledge: Semi-structured interviews .....	14
1.6.4 Collecting and analyzing research data: Content analysis .....	15
1.7 Outline of Thesis .....	16
References .....	16
<b>Chapter 2 The capacities of institutions for the integration of ecosystem services in coastal strategic planning: The case of Jiaozhou Bay</b> .....	23
2.1 Introduction.....	25
2.2 Methods.....	27
2.2.1 Study area .....	27
2.2.2 Content analysis.....	31
2.2.3 A multi-level analysis framework .....	33
2.3 Results .....	34
2.3.1 ES inclusion in the Jiaozhou Bay strategic plans.....	34
2.3.2 Existing institutions for integrating ESs into the selected strategic plans.....	41
2.4 Reflection and discussion .....	47
2.4.1 Institutional strengths and weaknesses of strategic planning in Jiaozhou Bay .....	47
2.4.2 International comparative position .....	49
2.5 Conclusion .....	52
References .....	53

**Chapter 3 How coastal strategic planning reflects interrelationships between ecosystem services: A four-step method**..... 59

3.1 Introduction.....61

3.2 A four-step method to analyze ES interrelationships..... 63

    Step 1: Selecting coastal strategic planning documents..... 63

    Step 2: Identifying ESs ..... 63

    Step 3: Identifying drivers, ESs and their effects .....65

    Step 4: Constructing relational diagrams ..... 66

3.3 The application of the four-step method to Jiaozhou Bay ..... 67

    3.3.1 Selecting strategic plans.....67

    3.3.2 Identifying ESs..... 68

    3.3.3 Inclusion of drivers and ESs..... 68

    3.3.4 Visualizing the ten relational types of drivers and ESs .....75

3.4 Discussion .....77

    3.4.1 Empirical reflection ..... 77

    3.4.2 Methodological reflection..... 81

3.5 Conclusion ..... 83

References ..... 83

**Chapter 4 Rules for the governance of coastal and marine ecosystem services: An evaluative framework based on the IAD framework** ..... 89

4.1 Introduction.....91

4.2 The IAD framework and the concept of rules ..... 92

4.3 ES-specific rules: an evaluative framework for coastal and marine governance ..... 94

4.4 Case study: Qingdao Coastal Strategic Planning ..... 99

4.5 Data collection and analysis ..... 100

4.6 An institutional analysis of coastal strategic planning for Qingdao city ..... 101

4.7 Conclusion and Reflection ..... 108

References ..... 110

**Chapter 5 Market-based instruments for the governance of coastal and marine ecosystem services: An analysis based on the Chinese case** ..... 117

5.1 Introduction..... 119

5.2 MBIs for ES governance ..... 121

    5.2.1 Theoretical relevance of understanding MBIs for ESs ..... 121

    5.2.2 An analytical framework ..... 122

5.3 Case study: China ..... 124

5.3.1 The development of MBIs for ESs in China .....	124
5.3.2 Selected MBIs for analysis.....	125
5.4 Research strategy for analyzing MBIs in China .....	126
5.5 Results: MBIs for ESs in Chinese coastal and marine governance .....	127
5.5.1 BASUR .....	127
5.5.2 CMEDC & SFR .....	132
5.6 Reflection and Discussion.....	134
5.6.1 Advantages and shortcomings of the Chinese governance of MBIs for ESs.....	135
5.6.2 Efforts for improvement.....	137
5.7 Conclusion .....	137
References .....	138
<b>Chapter 6 Reflection and conclusion: The integration of ES thinking into coastal and marine governance on the basis of Chinese experiences.....</b>	<b>145</b>
6.1 Introduction.....	146
6.2 Coastal and marine governance towards the integration of ES thinking .....	146
6.2.1 To what extent may specific ESs be recognized and incorporated in coastal and marine governance and to what extent are existing institutions capable of managing those services? (RQ 1).....	147
6.2.2 How to identify the interrelationships among ESs (trade-offs and synergies) that may have been integrated in coastal and marine governance? (RQ 2) .....	148
6.2.3 How may rules-in-use facilitate the integration of ES thinking within coastal and marine governance? (RQ 3).....	149
6.2.4 How may coastal and marine governance facilitate MBIs for ESs? (RQ 4) .....	151
6.3 General empirical reflection .....	152
6.3.1 Emerging governance efforts in China .....	152
6.3.2 Practical recommendations.....	155
6.4 Theoretical reflection .....	157
6.5 Methodological reflection .....	159
6.6 Recommendations for further research .....	160
References .....	161
<b>Appendices.....</b>	<b>165</b>
<b>Appendix A:</b> Overview of interviewees in the case study .....	<b>165</b>
<b>Appendix B:</b> Interview guidelines .....	<b>167</b>
<b>Appendix C:</b> Overview of analyzed policies and related documents .....	<b>177</b>

<b>Appendix D: Overview of coding systems for content analyses .....</b>	<b>182</b>
<b>Summary.....</b>	<b>187</b>
<b>Samenvatting .....</b>	<b>191</b>
<b>Acknowledgements .....</b>	<b>197</b>

## **List of Tables**

Table 2.1. Summary of four strategic plans related to Jiaozhou Bay

Table 2.2. Coastal ecosystem services related to coastal spatial planning

Table 2.3. Coastal ecosystem services presented in coastal strategic documents related to Jiaozhou Bay

Table 2.4. Coastal ecosystem services presented in coastal strategic documents for Jiaozhou Bay

Table 2.5. Likely implications for ESs of existing institutions of strategic planning for Jiaozhou Bay

Table 2.6. Institutional strengths and weaknesses of strategic planning in Jiaozhou Bay

Table 2.7. Generalizations for three-level institutions on ES integration from international case studies

Table 3.1. Drivers and ESs of trade-offs and synergies included in strategic planning for Jiaozhou Bay

Table 3.2. Common ES trade-offs and synergies of different types of ecosystems and methods

Table 4.1. ES-specific rules-in-use for coastal and marine governance

Table 4.2. ES-specific rules-in-use in Qingdao's coastal strategic planning practice

Table 5.1. Four distinctive governance aspects of MBIs concerning coastal and marine ESs

Table 5.2. Findings on the four distinctive governance aspects of the selected MBIs used in Chinese coastal and marine governance

## List of Figures

Figure 2.1. Jiaozhou Bay, Qingdao and Shandong Province

Figure 2.2. ES category frequency

Figure 2.3. The meso-level: Vertical and horizontal institutional structures relevant to strategic planning in Jiaozhou Bay

Figure 3.1. Diagram examples with essential elements to show ES relationships in Step 4

Figure 3.2. Relational diagrams of ES trade-offs identified from the Jiaozhou Bay strategic plans (the topmost rectangle is the driver; the rectangles below are ESs; the solid arrow indicates a positive influence; the dotted arrow indicates a negative effect; arrows illustrate the directions of effects; the horizontal axis means the attributes of a driver; the vertical axis shows the degree of ES interactions)

Figure 3.3. Relational diagrams of ES synergies identified from the Jiaozhou Bay strategic plans (the topmost rectangle is the driver; the rectangles below are ESs; the solid arrow indicates a positive influence; the dotted arrow indicates a negative effect; arrows illustrate the directions of effects; the horizontal axis means the attributes of a driver; the vertical axis shows the degree of ES interactions)

Figure 4.1. Rules affecting the elements of an action situation (Ostrom, 2011)

Figure 4.2. Qingdao and the Shandong Province
