DAMPs, endogenous danger signals fueling airway inflammation in COPD

Proefschrift

ter verkrijging van de graad van doctor aan de
 Rijksuniversiteit Groningen
 op gezag van de
 rector magnificus prof. dr. E. Sterken
 en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op
 woensdag 10 mei 2017 om 16.00 uur

door

Simon Daniël Pouwels

geboren op 28 oktober 1987
 te Avereest

Promotores

Prof. dr. I.H. Heijink

Prof. dr. A.J.M. van Oosterhout

Copromotor

Dr. ir. M.C. Nawijn

Beoordelingscommissie

Prof. dr. G. Brusselle

Prof. dr. D.V. Krysko

Prof. dr. P. Heeringa

TABLE OF CONTENTS

Chapter I	General introduction, background & scope of this thesis	9
Chapter II	DAMPs activating innate and adaptive immune responses in COPD <i>Mucosal Immunol. 2014;7: 215-26</i>	19
Chapter III	Cigarette smoke-induced necroptosis and DAMP release trigger neutrophilic airway inflammation in mice <i>Am J Physiol Lung Cell Mol Physiol. 2016;310: L377-86</i>	37
Chapter IV	Susceptibility for cigarette smoke-induced DAMP release and DAMP-induced inflammation in COPD <i>Am J Physiol Lung Cell Mol Physiol. 2016;311: L881-L892</i>	51
Chapter V	Genetic variation associates with susceptibility for cigarette smoke-induced neutrophilia in mice <i>Am J Physiol Lung Cell Mol Physiol. 2015;308: L693-709</i>	69
Chapter VI	A specific DAMP profile identifies susceptibility to smoke-induced airway inflammation <i>Eur Respir J. 2014;43: 1183-6</i>	91
Chapter VII	Genetic variance is associated with susceptibility for cigarette smoke-induced DAMP release in mice <i>Am J Physiol Lung Cell Mol Physiol. In revision</i>	95
Chapter VIII	Increased serum levels of LL37, HMGB1 and S100A9 during exacerbation in COPD patients <i>Eur Respir J. 2015;45: 1482-5</i>	121
Chapter IX	Increased neutrophil expression of pattern recognition receptors during COPD exacerbations <i>Respirology. 2017;22: 401-404</i>	127
Chapter X	Cigarette smoke-induced damage-associated molecular pattern release from necrotic neutrophils triggers proinflammatory mediator release <i>Am J Respir Cell Mol Biol. 2015;52: 554-62</i>	133
Chapter XI	Advanced glycation endproducts and their receptor in different body compartments in COPD <i>Respir Res. 2016;17: 46</i>	147

Chapter XII	Summary, general discussion & future perspectives	169
Chapter XIII	Nederlandse samenvatting / Dutch summary	189
Chapter XIV	Dankwoord / Acknowledgements	199
Appendix I	List of publications	205
Appendix II	Color images	207
