The cover represents a nodule in a Dupuytren cord. The word 'nodule' is derived from the Latin word 'nodus', which means 'knot'. In a progressed stage, Dupuytren cells align and form a cord, which is represented by the strings that are placed in one line.

Voor mijn ouders

Zij die nieuwsgierigheid hebben aangemoedigd,
doorzettingsvermogen hebben aangeleerd,
zij die altijd in mij hebben geloofd,
die nog altijd in mij geloven
en mij hebben geleerd om in mezelf te geloven

TABLE OF CONTENTS

Chapter 1.	General introduction	8
Part I.	Prevalence and risk factors	
Chapter 2.	A systematic review and meta-analysis on the prevalence of Dupuytren disease in the general population of Western countries	22
Chapter 3.	A systematic review and meta-analysis on the strength and consistency of the associations between Dupuytren disease, diabetes mellitus, liver disease and epilepsy	46
Chapter 4.	Dupuytren disease is highly prevalent in field hockey players aged over 60 years	76

Part II. Considerations on the measurement methods

- Chapter 5. Intra- and inter-observer agreement on diagnosis of Dupuytren disease, measurements of severity of contracture, and disease extent 96
- Chapter 6. Clinimetric properties of the Dutch URAM and its ability to detect Dupuytren disease progression compared to the MHQ 116

Part III. Natural course of Dupuytren disease

- Chapter 7. 4.5-year results of a prospective cohort study on disease course of primary Dupuytren disease 136
- Chapter 8. General discussion 162

Part IV. Summary, Samenvatting, CV, Dankwoord
