Psychomotor therapy and aggression regulation in eating disorders

Evidence-based treatment and performance-based measurement

Cees Boerhout

Psychomotor therapy and aggression regulation in eating disorders
Evidence-based treatment and performance-based measurement
Cornelis Boerhout

Thesis University of Groningen, the Netherlands

The randomized controlled trials described in this thesis were conducted at PsyQ Center for Eating Disorders, Lentis Psychiatric Institute, Groningen, the Netherlands and Amarum Center for Eating Disorders, GGNet Mental Health Care, Zutphen, the Netherlands.

The Method of Stamp Strike Shout was developed at the Center for Human Movement Sciences, University of Groningen, the Netherlands and the Technical Support Unit, Faculty of Science and Engineering, University of Groningen, the Netherlands.

The studies were performed in collaboration with the Rob Giel Research Center, University Center of Psychiatry, University Medical Center Groningen, the Netherlands.

The Dutch Association for Psychomotor Therapy (NVPMT) is recognized for their financial contribution to the study, enabling the development of the Method of Stamp Strike Shout.

Financial support for the publication of this thesis by Parnassia Psychiatric Institute, The Hague, the Netherlands, is gratefully acknowledged.
