## **Curriculum Vitae**

Heribertus Dedy Kusuma Yulianto was born in Yogyakarta, Indonesia on July 23th, 1978. He graduated as a dentist from the Faculty of Dentistry, Universitas Gadjah Mada, Indonesia in 2004. He started his academic career as a part-time assistant at the Department of Conservative Dentistry and at the same time, he was appointed to work as a dentist in a private dental clinic. In 2006, he started his master study at the School of Graduate Studies, Universitas Gadjah Mada in collaboration with the CASECUBE (Common Asian European Curriculum on BioMedical Engineering) project with the specialization, function restoration. The CASECUBE project was an intercultural, interdisciplinary and internet-based master curriculum funded by the Asia-Link project. After completion of his master degree through the CASECUBE- project in 2008, he became a staff member at the Department of Dental Biomedical Science, formerly Department of Basic Dental Science, and worked as a dentist at the Dental Hospital Prof. Soedomo until now. In 2013, He started a sandwich Ph.D. program in the Department of BioMedical Engineering, University Medical Centre Groningen, The Netherlands.
