**Characterisation of the *M*-locus
and functional analysis of the
male-determining gene in the
housefly**

Yanli Wu

The research described in this thesis was carried out in the Evolutionary Genetics group at the Centre for Ecology and Evolutionary Studies (CEES) and from 2015 onwards at the Groningen Institute for Evolutionary Life Science (GELIFES) of the University of Groningen, the Netherlands and in the department of Developmental Biology at the Johann Friedrich Blumenbach Institute of Zoology and Anthropology, Georg August University, Göttingen, Germany, according to the requirements of the Graduate School of Science (Faculty of Science and Engineering, University of Groningen) and Georg-August University School of Science.

This work was funded by an Ubbo Emmius grant of the University of Groningen and by the Department of Developmental Biology at the Georg-August-University Göttingen. The printing of this thesis was supported by the University of Groningen and the Faculty of Science and Engineering.

university of
 groningen

Characterisation of the *M*-locus and functional analysis of the male-determining gene in the housefly

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. E. Sterken
and in accordance with
the decision by the College of Deans.

and

to obtain the degree of PhD at the
University of Göttingen
on the authority of the
President Prof. U. Beisiegel
and in accordance with
the decision by the Georg-August University School of Science.

Double PhD degree

The thesis will be defended in public on
Friday 5 January 2018 at 11.00 hours

by

Yanli Wu

born on 29 March 1988
in Yiwu, China

Supervisors

Prof. L.W. Beukeboom
Prof. E. A. Wimmer

Co-supervisor

Dr. L. van de Zande

Assessment committee

Prof. J. Kok
Prof. G. Bucher
Prof. G. Saccone
Prof. Y. Huang

Contents

Chapter 1	General introduction	7
Box 1.1	The common housefly, <i>Musca domestica</i>	12
Box 1.2	The importance of studying <i>Musca domestica</i> for pest control.....	16
Chapter 2	Characterisation of the complex nature of <i>M</i> -loci in <i>Musca domestica</i>	23
Chapter 3	Comparative analysis of <i>Mdmd</i> genes located on different chromosomes of <i>Musca domestica</i>	51
Chapter 4	Expression pattern and functional analysis of <i>Mdmd</i> in <i>Musca domestica</i>	71
Box 4.1	Transgene construction for repeated expression of <i>Mdmd</i> in <i>Musca domestica</i>	90
Chapter 5	General discussion.....	101
