# Table of Contents

1. General introduction and aims	9
<b>Part I – Anorectal physiology</b>	<b>35</b>
2. Normal rectal filling sensations in patients with an enlarged rectum <i>Digestive Diseases and Sciences 2019</i>	37
3. The anorectal defecation reflex: a prospective intervention study <i>Colorectal Disease 2022</i>	55
<b>Part II – Bowel function in the general Dutch population</b>	<b>75</b>
4. The influence of demographic characteristics on constipation symptoms: a detailed overview <i>BMC Gastroenterology 2020</i>	77
5. Development and validation of the Early Pediatric Groningen Defecation and Fecal Continence questionnaire <i>European Journal of Pediatrics 2022 (online ahead of print)</i>	95
6. The development of bowel and bladder function during early childhood: a population-based study <i>Submitted</i>	113
<b>Part III – Long-term bowel function following colorectal resections in adults</b>	<b>133</b>
7. Anastomotic height is a valuable indicator of long-term bowel function following surgery for rectal cancer <i>Diseases of the Colon and Rectum 2021 (online ahead of print)</i>	135
8. How should the low anterior resection syndrome score be interpreted? <i>Diseases of the Colon and Rectum 2020</i>	163
9. Functional outcomes of surgery for colon cancer: a systematic review and meta-analysis <i>European Journal of Surgical Oncology 2021</i>	177
10. Long-term bowel dysfunction and decline in quality of life following surgery for colon cancer: call for personalized screening and treatment <i>Diseases of the Colon and Rectum 2022</i>	199

<b>Part IV – Long-term bowel function following colorectal resections in children</b>	227
11. Functional outcomes after surgery for total colonic, long-segment, versus rectosigmoid segment Hirschsprung’s disease <i>Journal of Pediatric Gastroenterology and Nutrition 2022</i>	229
12. Familial experience with Hirschsprung’s disease improves the patient’s ability to cope <i>Frontiers in Pediatrics 2022</i>	249
<b>Part V – Neuropathological characteristics of the colorectum</b>	273
13. Persistent bowel dysfunction after surgery for Hirschsprung’s disease: a neuropathological perspective <i>World Journal of Gastrointestinal Surgery 2021</i>	275
14. Neuropathological characteristics of the ganglionic colon are associated with bowel dysfunction following surgery for Hirschsprung’s disease <i>First results</i>	293
15. General discussion and future perspectives	315
16. Summary and conclusions	345
17. Nederlandse samenvatting en conclusies	355
<b>Appendices</b>	367
The Early Pediatric Groningen DeFeC questionnaire	369
List of contributing authors	389
List of publications	393
Acknowledgements / Dankwoord	395
Curriculum vitae	399
