About the author

About the author

Iana Țurcan was born in Fălești, Moldova on October 16th, 1983. At 16, she moved to Bucharest, Romania to continue her gymnasium. After graduation she enrolled for an undergraduate degree in premedical studies at Mesa College in San Diego, United States of America. After two successful semesters she transferred to Amsterdam with a strong conviction to pursue her goal of becoming a medical doctor in The Netherlands. Upon prompt completion of Dutch language courses and other academic requirements, she was admitted at Vrije Universiteit medisch centrum in Amsterdam, where she obtained her MD title in 2012. Thereafter, she moved to Groningen where she enrolled in a residency program in Dermatology and Venerology. In 2014 she briefly stepped out of clinical commitments to follow a PhD research program under the supervision of Prof. dr. Marcel Jonkman and copromotor Dr. Marjon Pasmooij. In 2016, Iana resumed her work in Dermatology and Venerology residency program. Her clinical and scientific interests are broad and include genodermatoses, autoimmune blistering diseases and complex cases of general dermatology.
