Perioperative renal protective strategies in kidney transplantation

Proefschrift

ter verkrijging van de graad van doctor
aan de Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties

De openbare verdediging zal plaatsvinden op

woensdag 27 maart 2019 om 16.15 uur

door

Gertrude Johanna Moeke

geboren op 17 januari 1976
te Hoogeveen

Promotores

Prof. dr. M.M.R.F. Struys

Prof. dr. H.G.D. Leuvenink

Prof. dr. R.G. Ploeg

Copromotor

Dr. V.B. Nieuwenhuijs

Beoordelingscommissie

Prof. dr. A. R. Absalom

Prof. dr. B. Beck-Schimmer

Prof. dr. G. Molema

Voor Reinoud en Juliette

The individual has always had to struggle
to keep from being overwhelmed by the tribe.
If you try it, you will be lonely often and sometimes frightened.
But no price is too high to pay
for the privilege of owning yourself

Friedrich Nietzsche

Paranimfen

Frouckje Hoekstra

Martine Moeke

Table of contents

Chapter 1	Introduction and rationale	9
Chapter 2	Mechanisms in injury and repair	23
Chapter 3	Renoprotective capacities of non-erythropoietic EPO derivative, ARA290, following renal ischemia/reperfusion injury	53
Chapter 4	ARA290, a non-erythropoietic EPO derivative, attenuates renal ischemia/reperfusion injury	69
Chapter 5	Molecular mechanisms of renal ischemic conditioning strategies	85
Chapter 6	Remote ischemic conditioning on recipients of deceased renal transplants does not improve early graft function. First results from the multicenter, randomised, controlled clinical trial CONTEXT	125
Chapter 7	A propofol based anesthesia versus a sevoflurane based anesthesia in living donor kidney transplantation, results of the VAPOR-1 randomized controlled trial	141
Chapter 8	Preemptively and non-preemptively transplanted patients show a comparable hypercoagulable state prior to kidney transplantation compared to living kidney donors	167
Chapter 9	Intraoperative fluid restriction is associated with functional delayed graft function in living donor kidney transplantation, a clinical experience	191
Chapter 10	General discussion and future perspectives	207
	Summary	245
	Nederlandse samenvatting	251
	List of publications	263
	List of abbreviations	269
	Biography	279
	Dankwoord	283
	Addendum 1: protocol article CONTEXT	295
	Addendum 2: supplemental material VAPOR	307
