About the author

Leontien Bossink was born in Borne in 1989. She finished her secondary school at the R.K. Scholengemeenschap Canisius in Almelo/Tubbergen in 2008, after which she started her academic career at the department of Special Needs, Education and Youth Care of the University of Groningen. Leontien holds a masters degree in Orthopedagogy (2012). She worked as a research assistant and a behavioral scientist (orthopedagoog) for people with severe intellectual disabilities at the 's Heeren Loo Zorggroep (2013-2014). In June 2014 she started her research that lead to this dissertation at the Research Centre on Profound and Multiple Disabilities, part of the department of Special Needs, Education and Youth Care of the University of Groningen. As part of her PhD she provided lectures and supervised Bachelor and Master students research projects. As of July 2018, Leontien is employed as a behavioral scientist at the 's Heeren Loo Zorggroep.
