When I look back 4.5 years PhD study in Groningen, all the stories come to my minds, the life here is full of happiness, endeavors, and gratitude.

At first, I must express my heartfelt gratitude to my supervisor **Prof. Yutao Pei**. Thank you so much for the acceptance of my transfer from KU Leuven and providing me the precious opportunity to continue my PhD study in APE group at University of Groningen. Some precious memories are still in my mind: Your kind invitation to visit APE group in January 2019; powerful support and help during my quarantine at China due to the COVID; constant encouragement to improve my spoken and written English, and try my best to do everything well and so on. With your constant supervision, trust, encouragement, and freedom, I can do so nice research topics. Because of your valuable and intelligent suggestions and guidance, my projects can be conducted smoothly and successfully. I am deeply impressed and inspired by your serious scientific attitude and rigorous thinking. I wish you and your family keep good health and have a happy life.

Secondly, I am grateful to my second promoter **Prof. Ajay.G.P. Kottapalli**, thank you for your supervision and so many valuable suggestions and discussions on my projects. I am so impressed by your passion on science, which is so inspiring to me. I wish all the best for you and your family.

Then, I would like to give my gratitude to my daily supervisor, **Dr. Liqiang Lu**. I remember the first time I met you at your office in 2015, you patiently and kindly introduced the research topic of energy materials and devices, even though I knew very little at that time. Then, I was luckily to be admitted as your master student and learn from you. From then on, you have been helping me without hesitation and reservation, from life to study and research. I really appreciate your selfless support, encouragement, and patience. Some of your excellent qualities, such as humility, erudition, generosity, and rigor are what I always need to learn and improve. I wish you and your family all the best
