resources, microbial synthesis to animal models**

Zheng Guan

The research described in this thesis was carried out in the Department of Chemical and Pharmaceutical Biology (Groningen Research Institute of Pharmacy, University of Groningen, The Netherlands) and was financially supported by the China Scholarship Council.

The research work was carried out according to the requirements of the Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands.

Printing of this thesis was financially supported by the University Library and the Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands.

ISBN: 978-94-6483-638-7 (printed version)

Exploring natural products: from herbal resources, microbial synthesis to animal models

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. J.M.A. Scherpen
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on
Tuesday 9 January 2024 at 12.45 hours

by

Zheng Guan

born on 20 August 1980
in Zhejiang, China

Supervisors

Prof. W.J. Quax

Prof. G.J. Poelarends

Assessment Committee

Prof. P. Olinga

Prof. K. Poelstra

Prof. Elfahmi

It is much harder to end a “war” than to start it.

Paranymphs

Rita Setroikromo

CONTENTS

Chapter 1	Introduction and scope of this thesis	11
Chapter 2	Identification and quantitation of phenolic compounds from the seed and pomace of <i>Perilla frutescens</i> using HPLC/PDA and HPLC-ESI/QTOF/ MS/MS	33
Chapter 3	Metabolic engineering of <i>Bacillus subtilis</i> for terpenoid production	49
Chapter 4	Production of squalene in <i>Bacillus subtilis</i> by squalene synthases screening and metabolic engineering	71
Chapter 5	The promiscuity of squalene synthase-like enzyme: dehydrosqualene synthase, a natural squalene hyperproducer?	101
Chapter 6	A nonalcoholic fatty liver disease cirrhosis model in gerbil: the dynamic relationship between hepatic lipid metabolism and cirrhosis	123
Chapter 7	Summary and future perspectives	145
	Nederlandse Samenvatting	
Appendix	Acknowledgments	165
