Acknowledgements

Dear Sijbren, I would like to thank you for giving me the opportunity to work in your group. I appreciate your way of giving freedom to people in their research projects. Overall, I learned a lot of scientifically and personally valuable things from you which helped me to become a better researcher and a better person. Thank you for all your contributions.

I would like to thank to the reading committee, Prof. Martin Witte, Prof. Rint Sijbesma and Prof. Michael Pittelkow for their time to read my thesis and insightful comments and corrections.

I am grateful to Monique and Theodora for their scientific support in chromatography and spectrometry related issues and Annette for her helps in all administrative issues. And Marc, thank you for introducing me to the amazing world of electron microscopy. I have always admired your approach to problems, your efforts to make people aware of what they are doing and most importantly making it in a quite fun way!

Ivana and Guillermo, thank you guys for being my paranymphs during my defense and for all your support in this period. People in Otto group; spending more than four years with you is truly an unforgettable period in my life. Andrea, the first months in Groningen was memorable especially when people insistently thought I was you! :) Asish and Morteza, thank you guys for your initiations in projects which eventually turned to be a big part of my research. Ivica, I am really glad to share my office with you and will really miss our non-scientific discussions in the office. Giulia, Boris, Gael, Saleh, Elio, Shuo, Jim, Andreas, Xiaoming, Jim, Bin, Soma, David, Babis, thank you all guys for all the time that we spent together. And all the new members of Otto group, I wish you good luck and a big success in your studies.

Of course, dear Turkish crew, Burcu, Pınar ve Seçkin, Ayşegül, Turhan, Arman, Veclal abla thank you for all your company. Müge & Patrick, I'm so glad to know you guys. I will always appreciate our talks that helped me to survive PhD life. And Billur, we are the best examples to show long distances can bring people closer ;)

And one day, we will make it!

Yiğit, we have started our journey by building a life abroad and have grown up together. Thank you for being my best friend and my life-long partner. And thank you for always believing in me more than I do myself.

Hayattaki en büyük şansım ailem, uzak mesafelerde bile olsak elinizi üzerimden hiç çekmediniz ve çekmeyeceksiniz, biliyorum. Aldığım her kararı desteklediğiniz ve her zaman yanımda olduğunuz için teşekkür ederim. İyi ki varsınız.

- SEPTEMBER 2019 Doctor of Philosophy in CHEMISTRY
University of Groningen, Groningen
Supervisor: Prof. Sijbren OTTO
- SEPTEMBER 2013 Master of Science in CHEMISTRY
Middle East Technical University, Ankara, Turkey
Supervisor: Prof. Salih ÖZÇUBUKÇU
- JUNE 2011 Bachelor of Science in CHEMISTRY
Middle East Technical University, Ankara, Turkey
- SPRING 2010 Summer Internship
Ghent University, Ghent, Belgium
Supervisor: Prof. Matthias D'HOOGE

List of Publications

1. Y. Altay, **M. Altay**, J. Ottele, P. W. J. M. Frederix, M. Malakoutikhah, G. Leonetti and S. Otto, “*A Structural Survey in the Search for Novel Self-Replicating Peptides*”, Manuscript in preparation.
2. X. Miao, N. Eisink, P. Nowak, **M. Altay**, G. Leonetti, I. Maric, M. Witte, S. Otto, “*Development of Stable Iron Oxide Nanoparticles for Facile Surface Functionalization*”, Manuscript submitted.

3. B. Bartolec, G. Leonetti, J. Li, W. Smit, **M. Altay**, G. M. Santiago, Y. Yan, S. Otto, “*Emergence of Compartments formed from Unconventional Surfactants in Dynamic Combinatorial Libraries*”, Manuscript submitted.
4. B. Bartolec, **M. Altay**, S. Otto, “*Template-promoted self-replication in dynamic combinatorial libraries made from a simple building block*”, **Chem. Comm.** **2018**, 54, 13096-13098
